

Michael Flashman

310 N Geneva St. Apt 7, Ithaca NY 14850 • 503-757-2496 • mtf53@cornell.edu

EDUCATION

Cornell University Ithaca NY, MA Applied Mathematics (expected May 2013)

Graduate Coursework

Dynamical Systems Probability Real Analysis Statistical Mechanics

Reed College Portland OR, BA Physics May 2008

Senior Thesis: *Modified Electrodynamics: Fixing Relativistic Field Theories*

Undergraduate Coursework

Multivariable Calculus I & II	Linear Algebra	Abstract Algebra
Ordinary Differential Equations	Complex Analysis	Real Analysis
Classical Mechanics	Electrodynamics I & II	Classical Field Theory
Quantum Mechanics I & II		

Computer Experience

Proficient in Ruby, Python, JavaScript, SQL, HTML, CSS, MATLAB, Mathematica, R, git, L^AT_EX
Some experience with C, Illustrator, Photoshop

EXPERIENCE

Research Assistant, Cornell University, Ithaca NY, Jun 2012–Aug 2012

Working under Prof. Ginsparg, wrote python based code to perform unsupervised analysis of large time-scale language patterns in the arXiv e-print database.

Teaching Assistant, Cornell University, Ithaca NY, Aug 2011–May 2012

Spring: grader for introductory course in real analysis. Fall: lead teaching assistant for introductory course in programming with MATLAB.

Junior Software Developer, Intersect.com, Seattle WA, Sep 2009–May 2011

Worked with team of six developers to build a web platform for community journalism. Responsible for code development (HTML, CSS, JavaScript, ruby, SQL, C), fixing defects, QA, data-analysis; designed and implemented spectral clustering of geo-temporal data and content ranking system.

Editorial Associate, under Dr. Joel Franklin, Reed College, June 2008–Aug 2008, June 2009

Performed comprehensive editing, for accuracy, style, and content, of his undergraduate physics text, *Advanced Mechanics: An Introduction to General Relativity*, Cambridge University Press.

REU Fellow, Santa Fe Institute, Santa Fe NM, June 2007–Aug 2007

Conducted independent research under Dr. Eric Smith concerning the plausibility of a metabolism-first scenario for the origin of life and graph theoretic formalisms for describing chemical reactions

Nuclear Reactor Operator, Reed Research Reactor, Portland OR, Aug 2005–May 2006

Responsible for reactor operation, sample preparation, operator training, and emergency response

PATENTS (PENDING)

Inventors: Peter Rinearson, Kristofor Selden, Michael Flashman

US 20120005209, SYSTEMS AND METHODS FOR IDENTIFYING INTERSECTIONS USING CONTENT METADATA

HONORS

Phi Beta Kappa, Reed College, 2008
Commendation for Academic Excellence, Reed College, 2005–2008
California State Arts Scholar, 2004
High School Salutatorian, 2004
